

# Instruction Sheet No. 2: Terms and Conditions of Delivery of REMONDIS SAVA GmbH

**Solid waste that requires crushing – Dry bulk –**

**In addition: Appendix to the Instruction Sheets No. 1, 2, 3 and 5: Materials that are not suitable for the bunker, shredder or paste (Exclusion List)**

In advance of each delivery a detailed waste description in English or German language has to be provided (current analysis, safety data sheet). Likewise, a representative sample of the waste may be submitted. **Please contact us in case of deviations from the conditions specified herein!**

**Consistency of the waste: solid, pasty**

**Possible delivery systems:**

- \_ ASP-container with inliner bag
- \_ Lift-off or roll-off containers
- \_ Tipping semi-trailer

**Delivery conditions (please contact us in case of deviations):**

- \_ Flashpoint > surrounding temperature
- \_ Mercury < 3 ppm (or mg/kg)
- \_ Sulphur < 1.0 %
- \_ Zinc < 1.0 %
- \_ Organically bound silicon < 0.5 %
- \_ Phosphorus < 1.0 %
- \_ Fluorine < 0.1 %
- \_ The containers may only contain liquids with a flashpoint > surrounding temperature (see the **Exclusion List**)
- \_ Waste that requires crushing (Instruction Sheet No. 2) has to be strictly separated from waste that does not require crushing (Instruction Sheet No. 1)
- \_ No solid metal parts (metal discs, iron pipes and rods, gears and castings, tubing with flange connectors, steel reinforcement, etc.)
- \_ No stones or concrete lumps
- \_ No intact, closed metal containers, no spray cans
- \_ Max. edge length: 120 cm (no endless filter cloth, long tubing or long plastic foil, no wired hoses except for corresponding cuts of a maximum length of 40 cm)
- \_ Maximum volume: 60 l containers (no solvents, containers > 60 l have to be delivered on pallets, see Instruction Sheet No. 3)
- \_ Thickness of metal up to max. 3 mm

**Excluded from the acceptance in the bunker** are substances that are not suitable for the bunker due to their risk potential. For this the **Appendix to the Instruction Sheets No. 1, 2, 3 and 5: Materials that are not suitable for the bunker, shredder or paste (Exclusion List)** has to be observed. Those are, for example, dusty, reactive, smelling, toxic substances. These substances – appropriately packed – can be accepted for the drum lift (see Instruction Sheet No. 4).

**Completely excluded from the acceptance and not permitted** are gaseous, explosive and radioactive substances, likewise chemical and biological warfare agents, genetically modified materials, as well as asbestos and carbon fibre reinforced plastics.
